Explanation of list

Please note that the order values include VAT, but the order value excluding VAT is relevant for calculating the applicable threshold.

The list also includes the procurements published at www.simap.ch.

Swiss Post publishes here all contracts concluded in 2025, regardless of the specific contract or service start date. The latter can therefore only start at a later date (2026).

The “direct procedure” procedure type also includes contracts awarded in response to a request for proposal from several providers and thus in competition.

In the event of contradictions, the German version is authoritative.

Disclosure of procurements from 50,000 francs

Supplier (contractor)	street	place	Subject of procurement (categories)	award procedure	contract start date	end of contract	Order volume in CHF incl. VAT
Körber Supply Chain AG	Hardturmstrasse 130	Zürich	IT services in the field of ICT, excl. hiring of services	negotiated procedure	01.01.2025	31.12.2028	CHF 2'486'300.00
